

Gel-Pak®

Protecting the World's Finest Objects

Gel-Coated Jewelry Boxes

Gel-Pak's line of Gel-coated jewelry boxes are designed to immobilize and protect your finest objects. The proprietary Gel material holds gems in place for easy cataloging, storing, and transportation. Gel-Pak boxes enable stones to hang from their facets, allowing light to come in at 360 degrees, adding to the brilliant display and shine of the stone.

Our unique jewelry carriers are crafted with a white base and transparent lid. Gel material is applied to the inside of the lid, creating a sticky surface to which gems can adhere. The Gel never leaves a residue and the product can be used over and over again.

Gel-Pak jewelry boxes are available in a variety of sizes and can be customized with a variety of print options.

Gel-Pak Jewelry Boxes:

- *Suspend gems in place*
- *Easy to inspect & count*
- *Available in a variety of sizes*
- *Available with custom prints and grids*
