

TECHNICAL DATASHEET

Material Property	Value
Chemistry	Proprietary Thermoplastic Elastomer
Durometer	35 - 43 Shore A
Surface Tack	Medium Tack
Surface Resistance (ohms)	< E10 Ω
Film Temperature Range	Storage Temperature: 0 to +60 °C Operating Temperature: 10 to +35 °C
Shelf Life	2 Years

Notes:

FE60 products types:

AV, BV, CV, VRV, NDTV, PFV, & WFV.

Not for use with VRV-44 or large format VRV trays.

Film Thickness:

AV, BV, CV & WFV products use 5 mil film.

VRV, NDTV & PFV products use 2, 3, & 9 mil film.

These values are for reference purposes only and are not intended for use in preparing specifications.
